JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF  
ARMY-NAVY-CIA

SUBJECT : Herringbone Surface-to-Air NO : PIC/JB-1003/60  
Missile Site E-15 DATE : 26 July 1960  
LOCATION: 44 nm SE of Moscow, USSR COORD: 55°09'35"N 38°22'40"E

FIGURE 1. HERRINGBONE SAM SITE E-15. This section of Air Target Mosaic 0167-10/3MA shows the predicted location of Site E-15 in black and the actual location of the site in red.

PIC/JB-1003/60

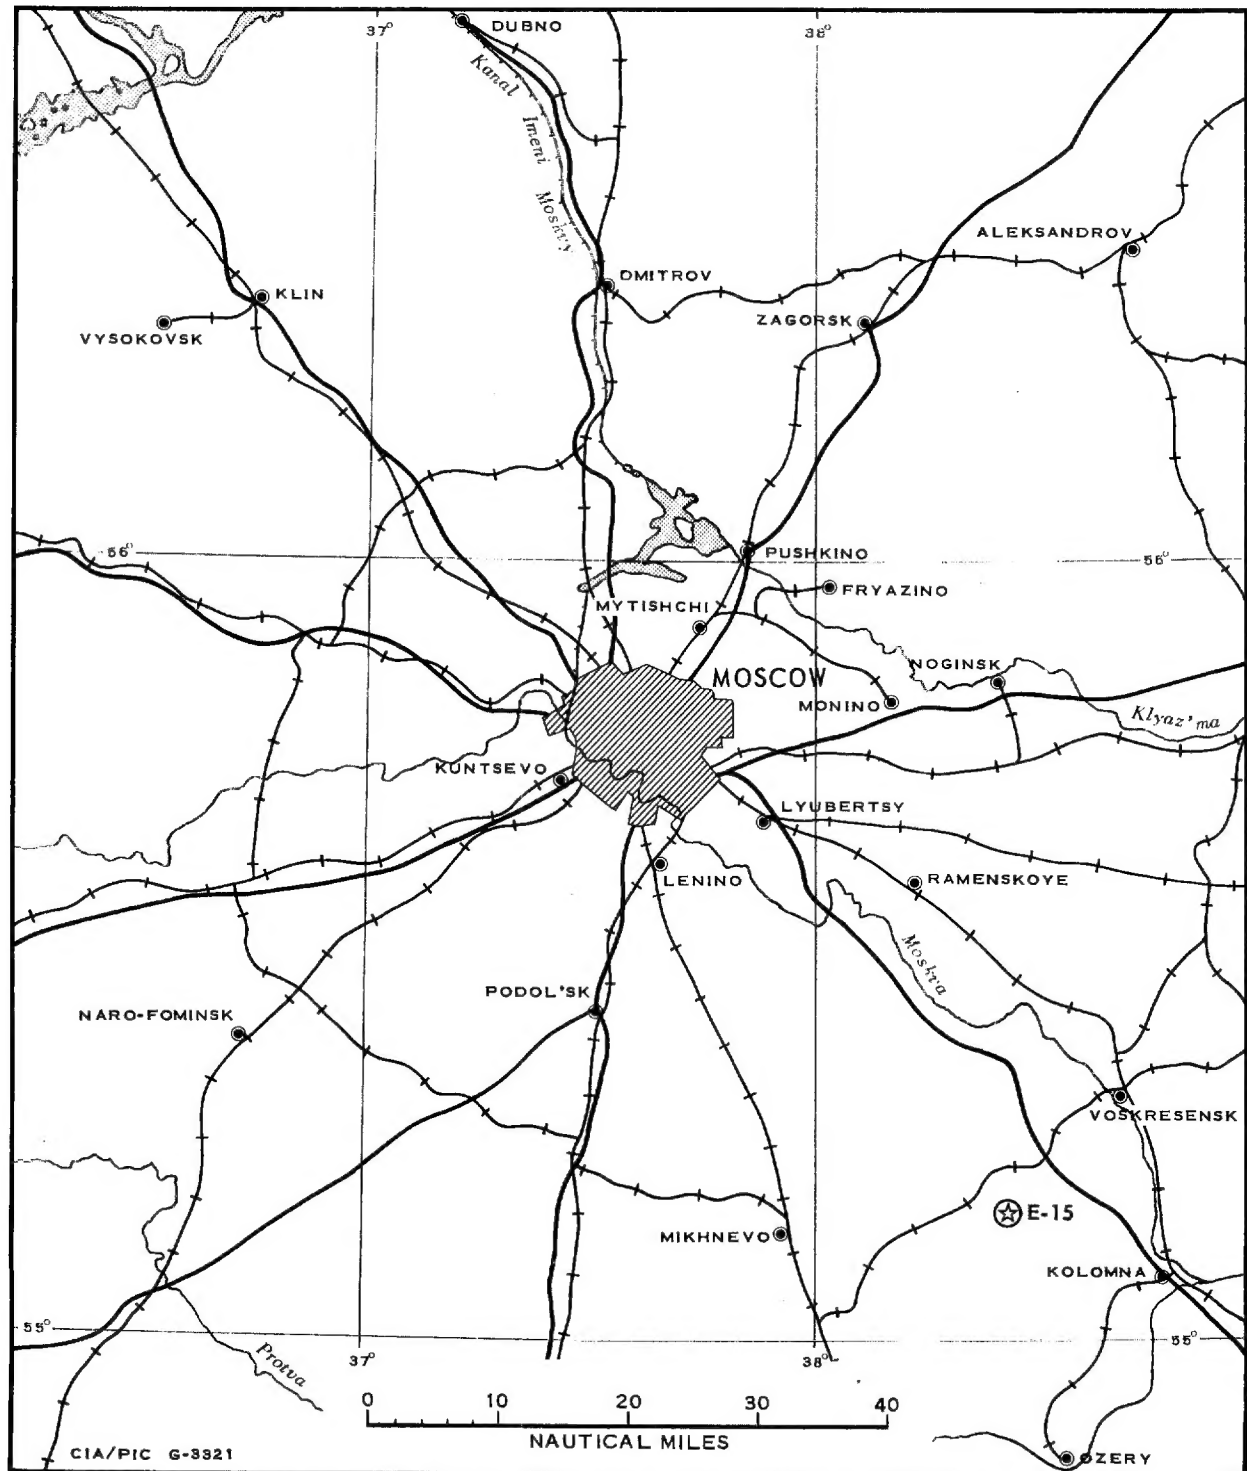

FIGURE 2. LOCATION OF MOSCOW HERRINGBONE SAM SITE E-15.

S-E-C-R-E-T

Approved For Release 2001/08/07 : CIA-RDP78T04751A000300090003-1

PIC/JB-1003/60

REFERENCE POINT:

The Kremlin, 55°45'N - 37°37'E.

LOCATION:

44 nm southeast of reference point.

FUNCTION:

One of a group of sites deployed for the defense of Moscow.

SITE STATUS:

Probably complete and operational.

REMARKS:

This is the first known photographic coverage of Herringbone SAM Site E-15.

Site is irregularly-shaped, and is located in a generally cleared area on the outer herringbone defense ring.

Although the single small-format aerial photograph is of extremely poor quality, visible service roads indicate that Site E-15 probably has 60 launch points. Poor quality of the photograph precludes identification of a Yo-Yo radar or housing facility, both of which are normally associated with this type of site.
